

Chemistry Honor Society

Chemistry Honor Society - Phi Lambda Upsilon – The aims and purposes of Phi Lambda Upsilon are the promotion of high scholarship and original investigation in all branches of pure and applied chemistry. Phi Lambda Upsilon was founded as an honorary chemical society in March 1899, at the University of Illinois. Gamma Sigma Epsilon is a national chemistry honor society founded in 1919 at Davidson College. The original fraternity was created to promote academic excellence and undergraduate research scholarship in chemistry. In 1931 the fraternity went co-ed and became an honor society. We also sponsor various academic and research related events, such as the Chemistry Round Table. Our goal is to cultivate within our peers and the public an appreciation of the wonders of science. [LEARN ABOUT OUR REVIEWS](#). Chemistry Honor Society THE KAPPA MU CHAPTER AT ST. JOSEPH'S COLLEGE. Gamma Sigma Epsilon (???) is a national chemistry honor society founded in 1919 at Davidson College.
